

**The #1 wood post repair solution on the market.**

Just like any living organism maintenance is key to a long healthy life, however in most cases people overlook this and when they do it can be very costly. The Post Doctor eliminates the need for a high cost brand new wooden fence after your wooden posts have rotted from lack of maintenance or have been victim of termites or pests. No need to remove or dig up existing posts. Our system uses the old post and restores it back to it's former glory and will add another 10 years to the life of your fence. Why pay \$150/each when it can cost less than half that price. Also, good for rotted mail boxposts too!!!

## Anatomy of a wooden fence

Wooden post

The Post Doctor

Concrete Base

**Before:** The Posts are rotted and have weakened to the point of where the fence has now started to lean. No worry call The Post Doctor

**After:** As you see the fence is now straight and has been restored thanks to The Post Doctor.
